

Prof. Dr. Ana Olga Mocumbi

Ana Olga Mocumbi is a cardiologist with a PhD in Epidemiology of Neglected Cardiovascular Diseases, her area of interest. She is an Associate Professor of Cardiology at Universidade Eduardo Mondlane, Mozambique and is the Head of the Division of Non Communicable Diseases at the National Public Health Institute, at the Ministry of Health in Mozambique. She is the Editor of the Cardiovascular Diagnosis and Therapy Journal. She is currently Vice President of the Pan African Society of Cardiology (PASCAR) South Region, Co-Leader of the Pulmonary Vascular Research Institute for the Sub-Saharan Region and Member of the World Heart Federation's Scientific Policy and Advocacy Committee for Rheumatic Heart Disease, and Co-Chair of the *Lancet* Commission for Poverty-Related NCD.

Dr. Kevin Mortimer

Dr. Kevin went to medical school in Cambridge and then trained in General Internal Medicine and Respiratory Medicine in Nottingham. He did a PhD at the University of Nottingham where he subsequently took up a Clinical Lecturer post, developing his interest in clinical trials and airways diseases. He moved to the Liverpool School of Tropical Medicine in 2011 as Senior Clinical Lecturer. He is an Honorary Consultant in Respiratory Medicine at Aintree University Hospitals NHS Foundation Trust and Co-Principal Investigator in the Cooking and Pneumonia Study CAPS. He is a member of the teaching faculty for the American Thoracic Society and Pan African Thoracic Society course (link is external).

Dr. Wolfgang Krahl

Wolfgang Krahl is a neurologist and psychiatrist currently attached to the Isar-Amper-Klinikum München Ost, Department of Forensic psychiatry in Germany. Since 2008 he is involved in teaching psychiatry in Ethiopia, Kenya, Mozambique and Somaliland. He is Mental Health advisor and lecturer at the Center for International Health CIH LMU. He is the founding member and Chairman of the International Network for Co-operation in Mental Health since 2000. He is also a member of the World Psychiatric Association, Transcultural Psychiatry Section, the German Association for Psychiatry and Psychotherapy and of the World Association for Psychosocial Rehabilitation.

Dr. Quang Van Ngo

Quang Van Ngo is a pediatrician and has a Master degree in Epidemiology. He is the Vice director of the Da Nang Center for Reproductive Health and adjunct faculty of Medicine and Pharmacy School at the Duy Tan University. He has particular interest in screening programs for cervical cancer.

THE TRIPLE BURDEN OF DISEASES SYMPOSIUM

Emerging challenges of Triple burden of Diseases and their prospects in Developing Countries

March

18, 2017

Munich , Germany

9am-5pm

Venue:

University Hospital of Munich

Department of Anatomy

Auditorium A 202

Pettenkoferstraße 11, Munich

Symposium Overview

This symposium aims to present the current panorama of the co-existing Infectious Diseases, NCD and Trauma in developing countries and at the same time promote discussion on the challenges of establishing better integrated health systems and the clinical, social and economic impact of the Triple Burden of Diseases in developing countries. It is expected that the symposium will attract a wide audience from the academia, non-governmental organizations, government agencies and healthcare providers.

Sessions Aims: To update on the modern situation based on specific experiences.

Panel discussion Aim: To promote discussions and recommendations based on specific scenarios.

About CIH

In 2009, the CIH^{LMU} Center for International Health was selected as one of five Centers of Excellence for Development Cooperation (exceed) by the German Academic Exchange Service (DAAD) and the German Federal Ministry for Economic Cooperation and Development (BMZ). The Center was funded by this award for a five year period. A subsequent application for the follow-up period 2015 to 2019 was successful. CIH^{LMU} aspires to meet health-related challenges through capacity building in training and research. Within the Ludwig-Maximilians-Universität München, four faculties and 12 departments were involved in the planning and founding process. They collaborate with more than 50 universities and ministries worldwide, including the World Health Organization and other stakeholders in the field of health.

Vision

CIH^{LMU} - We Empower Health Professionals

Mission

CIH^{LMU} aspires to meet health-related challenges through capacity building in training and research.

Speakers

Prof. Dr. Ana Olga Mocumbi (Mozambique)
Neglected chronic diseases in Africa: challenging the status quo

Prof. Dr. Berthold Koletzko (Germany)
Early nutrition programming: implications for later life

Dr. Kevin Mortimer (UK)
Household air pollution in developing countries : a major poverty related environmental risk factor for morbidity and mortality

Dr. Olive Kobusingye (Uganda)
Move at your own risk! Why are so many dying on our roads?

Dr. Wolfgang Krahl (Germany)
Substance abuse and mental health in Africa and Asia

Dr. Quang Van Ngo (Vietnam)
Implementing programs to reduce the burden of cervical cancer in Vietnam: HPV vaccine and early screening using VIA

Panel Discussion 1: Triple burden of diseases: Implications for health systems

Moderated by Dr. Günter Fröschl (Germany)

Panel Discussion 2: Impact of the triple burden of diseases for developing countries

Closing

Prof. Dr. Berthold Koletzko

Berthold Koletzko is a Professor of pediatrics at the Ludwig-Maximilians-University Munich, the Head of the Department of Metabolic and Nutritional Medicine at the Dr. von Haunerschen Children's Hospital at the Munich University Hospital and the Managing Director of the Early Nutrition Academy. He is the coordinator of various international research projects, including the EU-funded "Early Nutrition Project" for the early-childhood of lifelong health. He is also Member of the Medical Committee of the German Research Association, the National Commission on Nursing, and the Executive Boards of the United European Gastroenterology; European Pediatric Association; International Society for Developmental Origins of Health and Disease; International Society for Research in Human Milk and Lactation; And Federation of International Societies on Pediatric Gastroenterology, Hepatology and Nutrition.

Dr. Olive Kobusingye

Olive Kobusingye is an Accident & Emergency surgeon and injury epidemiologist. She is a Senior Research Fellow at both Makerere University School of Public Health and the Institute for Social and Health Sciences of the University of South Africa. She heads the Trauma, Injury, & Disability (TRIAD) Project at Makerere University School of Public Health, where she coordinates the TRIAD graduate courses. Olive worked as Regional Advisor on Violence, Injuries, and Disabilities at the WHO regional office for Africa (AFRO). She is the Board Chair of the Road Traffic Injuries Research Network (RTIRN) and has served on the Core Advisory Group of the World Bank's Global Road Safety Facility.

Dr. Günter Fröschl

Günter Fröschl is a medical doctor and specialist in infectious diseases and tropical medicine and a senior lecturer and researcher at the Division of Infectious Diseases and Tropical Medicine of the Ludwig-Maximilians-Universität München. At the same time he is a board member of the CIH^{LMU} Center for International Health. He has been employed by different humanitarian organizations for missions mostly on the African continent, dealing with health system strengthening, infectious disease management programs and working with refugee populations in different settings. His research commitments comprise infectious diseases, health systems and capacity building in low resource contexts, as well as situational and needs assessments in refugee populations.
