Dear Colleagues,

The Center for International Health (CIH)<sup>LMU</sup>, the Global Mental Health Research Group of the Department of Psychiatry and Psychotherapy at Ludwig-Maximilians-University Munich, and the International Network for Cooperation in Mental Health (i.nez), are organizing the 11<sup>th</sup> International Symposium on “Global Mental Health - Mental Health in Developing Countries” on Saturday 23 October 2021 from 9.00-17:00 (9am - 5pm) in the form of a webinar via Zoom platform. This year's symposium will focus on **Global Mental Health and Human Rights**.

More than half a billion people worldwide suffer from a neuropsychiatric disorder or are dependent on alcohol or drugs. More than 80% of these people live in low-and middle income countries; most of them do not receive appropriate treatment, many are stigmatized and experience prejudice, social exclusion, and violations of their human rights. This symposium will discuss the human rights abuses towards people with mental disorders. Discussants include representatives of patient- and family-organizations, lawyers, anthropologists and psychiatrists. Participation is open to all interested in this topic. You are cordially invited to join.
