

CIH Symposium on Global Health Perspectives: Climate Change and Migration

Friday, 12th March 2021, 09:00 -16:00 (CET), Online Event

Agenda

Time	Activity	Speaker
09:00-9:15	Welcome remarks & set-up	Organizing committee
09:15-9:30	Inaugural speech & Introductions	Dr. Günter Fröschl
09:30 -10:15	"Climate change on the move"	Dr. Peter van den Hazel
10:15-10:30: Break		
10:30- 11:15	"Efforts to alleviate the consequences of climate change and migration on health"	Prof. Dr. Chukwumerije Okereke
11:15-11:30	Research project presentations	M.Sc. and PhD students of CIH-LMU
11:30-13:00: Lunch Break		
13:00-13:45	"Consequences and impact of climate change and migration on Global and Planetary health"	Dr. Meghnath Dhimel
13:45-14:30	"Trends, magnitude and distribution of the effects of climate change and migration"	Dr. Shelby Yamamoto
14:30-14:45: Break		
14:45-15:00	Research project presentations	Msc and PhD students of CIH-LMU
15:00-15:45	Panel discussion: "The climate- security-migration nexus represents an emergency. What kind of interventions are needed?"	Moderated by Dr. Martin Herrmann
15:45-16:00	Acknowledgements & Closing remarks	Organizing committee/Dr Günter Fröschl

CIH Symposium 2021: Speaker list

Dr. Peter van den Hazel (Netherlands)

Dr. Peter van den Hazel is an environmental physician and President of the Health and Environment Alliance (HEAL), the leading European non-profit organization addressing how the natural and built environments affect health in the European Union. He is also the co-founder of the International Network for Children's Health, Environment and Safety (INCHES) and a member of several working groups related to environmental health in the Netherlands.

Prof. Dr. Chukwumerije Okereke (Nigeria, UK)

Professor Chukwumerije ("Chuks") Okereke is the Director of the Centre for Climate Change and Development at Alex Ekwueme Federal University Ndufu-Alike, Nigeria and a visiting Professor at the Universities of Reading and Oxford, UK respectively. He is a globally recognized leading scholar on global climate governance and international development with expertise in climate justice, national green growth transition in Africa, climate adaptation, and environmental policy.

Dr. Meghnath Dhimal (Nepal)

Dr. Meghnath Dhimal is the Chief Research Officer at the Nepal Health Research Council (NHRC). He is the founder and coordinator of the Young Scientists Forum, a forum which engages young scientists in the promotion of science, technology and SDGs. His areas of research interests are climate change & global health, environmental health and the global burden of diseases.

Dr. Shelby Yamamoto (Canada)

Dr. Shelby Yamamoto an environmental epidemiologist actively involved in the exploration of environmental factors that impact vulnerable populations. Her research primarily focuses on the health impacts of air pollution and climate change. Shelby is particularly interested in investigating the relationship between air pollution, climate change, and chronic diseases.

Dr. Martin Herrmann (Germany)

Dr. Herrmann is the initiator and spokesman of KLUG (German Alliance for Climate Change and Health). Originally a doctor and psychotherapist, Martin soon switched to advising companies and NGOs, developed new methods for organizational development and now teaches at international business schools and universities.
